

"TRADITIONAL" PORTRAYAL OF ROCK CYCLE

WITH A FEW MODIFICATIONS

Adapted from: Pearl, R.M., 1960. *Geology*, College Outline Series, 1960. p. 91
(from L.D. Leet and S. Judson, *Physical Geology*, 1954).

Color code (when colored)

- Red = Melting and crystallization
- Brown = Metamorphism
- Green = Lithification (cementation and compaction)
- Blue = Sedimentation (weathering, erosion, transport, and deposition)
